

## DAY ONE AGENDA - WEDNESDAY, JULY 17, 2024

7:30	<b>TOUR CHECK-IN AND REGISTRATION OPENS - MANURE EXPO SITE</b>			
	<b>Tour #1 Patterson Farms Tour</b>	<b>Tour #2 Sunnyside Farms <i>Water Quality Protection</i></b>	<b>Tour #3 Aurora Ridge Dairy and Lincoln Dairy <i>Energy From Manure</i></b>	<b>Tour #4 DuMond Grain Farms and Spruce Haven Dairy <i>Soil Health Systems</i></b>
8:00		Bus departs	Buses depart	
8:15	Tour A departs			
8:30				Bus departs
9:15	Tour A returns - Tour B departs			
9:30			Both buses load and visit next farm site	
10:15	Tour B returns - Tour C departs			
11:00 - 11:30	Tour C returns	Bus returns	Buses return	Bus returns
11:00 - 1:00	<b>Expo grounds and tradeshow open. Visit vendors and enjoy lunch</b>			
12:00 - 12:45	<b>Tent #1 - Puck's Pump School</b>			
1:00	<b>Agitation demonstrations</b>			
2:00	<b>Separation demonstrations</b>			
3:00 - 5:00	<b>Safety School - includes dragline safety, confined space training, road safety, truck inspection and pressurized hose release demonstration</b>			
5:00	<b>Expo grounds close</b>			
6:00 - 8:00	<b>Evening BBQ and networking</b>			

## DAY TWO AGENDA - THURSDAY, JULY 18, 2024

7:30	<b>EXPO GROUNDS AND TRADESHOW OPEN</b>							
8:00 - 8:30	<b>TENT 1</b>	<b>Avoiding road damage</b> <i>David Orr, Jeff Griswold</i>	<b>TENT 2</b>	<b>Dairy Soil Water Regeneration Project - Measuring GHG emissions from dairy cropping systems</b> <i>Victor Green</i>	<b>TENT 3</b>	<b>In-season manure application to growing crops</b> <i>Glen Arnold, Melissa Wilson</i>	<b>TENT 4</b>	<b>Lessons learned from 10 years of edge-of-field drainage research in northern New York</b> <i>Laura Klaiber, Abby Augarten</i>
8:30 - 9:00		<b>Road safety</b> <i>Nathan Crudele</i>		<b>Biochar to suppress emissions from manure applications</b> <i>Carol Adair, Heather Darby</i>		<b>Compaction: Avoidance, management, does subsoiling work, CTIS</b> <i>Kitty O'Neil</i>		<b>Rainfall simulation project: How different manure sources impact erosion, P runoff and N percolation</b> <i>Tibor Horvath</i>
9:00 - 9:30		<b>Johne's disease management: Findings and farmer perspectives</b> <i>Whitney Hull</i>		<b>Manure practices for greenhouse gas mitigation and climate resiliency</b> <i>Jason Oliver, Lauren Ray</i>		<b>Assessing the value of manure: Impacts on soil health and corn yield</b> <i>Juan Carlos Ramos, Gupreet Kaur</i>		<b>Success stories from the New York Watershed Ag Programs</b> <i>Mark Burger, Dale Dewing</i>
9:30 - 10:00		<b>LEAN systems' approach to farm safety</b> <i>Richard Stup</i>		<b>Manure tech decision support tool: Applications and optimization for dairy and swine</b> <i>Jacob Hickman, Teng Lim</i>		<b>Whole farm approach to manure application and soil conservation</b> <i>Brendan Jordan, Jason Burroughs</i>		<b>Using risk assessment tools to identify high-risk fields and implement BMPs to avoid N/P losses</b> <i>Quirine Ketterings</i>
10:00 - 10:30	<b>Explore the expo and visit with vendors</b>							
10:30 - 12:00	<b>Solid Manure Demonstrations - including spreaders, compost turners and stack cover demos</b>							
12:00 - 12:45	<b>Enjoy lunch and connect with vendors Research poster judging session</b>		<b>Tent 2: RNG Production with REV LNG Tent 3: Slurry management systems with DairyPower Equipment/Troop Equipment</b>					
2:00 - 3:30	<b>Liquid Manure Demonstrations - including dragline application in corn and grassland injection</b>							
3:30 - 4:15	<b>Explore the expo and visit with vendors</b>							
4:15 - 5:00	<b>Spill response and restoration demonstration</b>							
5:00	<b>Expo grounds close - See you next year in Ohio!</b>
